

FIRST BOARD MEETING OF THE NEW YEAR

The first board meeting of the new year has been called for August 11th & 12th at the Langford Hotel in Winter Park. The Langford has asked to put in a proposal for the 1963 annual membership meeting so it seemed a good idea to look them over and have the board meeting at the same time. We don't know what rates they will quote for the Annual Membership meeting but they do know what we paid in Daytona Beach and in Miami Beach a year ago.

The president, Mrs. John Wylie, felt that since the shows were due to start soon that we had better get the first board meeting behind us. Board meetings and Hibiscus shows just don't seem to mix.

If any board member has something to place on the agenda please drop the Executive Secretary a line so it can be included when mimeographed. There will be a meeting Saturday evening and the wind-up on Sunday morning. All business should be finished so that members can be on the way home by noon.

Send your reservations direct to the Langford Hotel, Winter Park, Florida. Pets will be allowed in the rooms.

There was this fellow who was such a block-head that he left wood shavings in the washbowl instead of whiskers.

AT LAST
A Plant Food designed especially for

HIBISCUS

and FLORIDA growing conditions

"PERFECT"

PROFESSIONAL GRADE

100% Soluble Plant Food

HIBISCUS SPECIAL 11-21-26

Produces deep green foliage, large blossom with intense coloration, "hard" woody, flowering growth. Prevents excessive "soft" growth. Easily applied as root feeding or foliage spray, compatible with all present insecticides.

A healthy "PERFECT" fed plant resists insects to a greater degree, will suffer less from "bud drop", is more likely to develop

PRIZE WINNING BLOOM!

PERFECT contains all minor elements known to be required and these are made immediately available by chelating, sequestering and penetrating agents.

For your own amazement and the best blooms you have ever grown use PERFECT -----

Your HIBISCUS will LOVE it - so will YOU !
